

## Career Journey as a General Practice Nurse

*We caught up with Leanne Abrams from Manor Practice, Sutton Coldfield who is a General Practice Nurse. Here's what she had to say about her career journey.*

### About Me

I've been qualified for almost three years now. I started as a student and was on placement here at the Manor Practice for four months and really enjoyed everything that they did here.

Being a practice nurse never crossed my mind. The nursing staff were, and still are, very supportive and everyone made me feel a part of the team, whilst learning so many new skills.

### What have you been up to since qualifying

In those three years I have completed my Fundamentals to Primary Care Nursing which includes everything we need to be a practice nurse including Cervical Cytology training, I completed the BSol Early Career Fellowship, and I've just completed my Diploma in Diabetes Care.

It's been very rewarding and although I'm itching to do more, I'm going to take some time to consolidate what I've learnt so far.
